About Me

I am a Technical Product Manager & Educational Technologist with 5+ years of experience steering cross-functional engineering teams and architecting data-driven digital learning products. Bridging software engineering with cognitive pedagogy, I specialize in technical product strategy, behavioral analytics, and interactive digital content creation. From automating platform architectures with Generative AI to building high-fidelity LMS environments, I translate complex system requirements into scalable, highly accessible user workflows.

Education

Universität des Saarlandes

Saarbrücken, Germany

M.Sc. Educational Technology — Current GPA: 1.7 / 1.0

Oct 2025 – Present

- **Core Focus:** Human-Computer Interaction (HCI), Digital Learning Management, Learning Analytics, Multimedia Instructional Design, and AI-enhanced learning scaffolds.
- **Relevant Project Work:** Developed interactive digital training formats and optimized multimedia learning environments with Articulate by applying advanced cognitive load balancing and behavioral analytics.

Istanbul University-Cerrahpasa

Istanbul, Türkiye

Bachelor of Education in Preschool Teaching — Final Grade: 3.64 / 4.0 (~1.36 German Grade)

Sep 2018 – Jun 2022

- **Core Focus:** Instructional Design, Cognitive Processes in Education, Educational Media Creation, and Learner Agency.
- **Thesis/Project:** Educational Technology & Content Creation: Conceptualized and designed interactive, high-fidelity digital learning applications to streamline information processing and maximize knowledge retention with Camtasia and Adobe Premiere.
- **Credits & Details:** 240 ECTS credits. Official website: www.iuc.edu.tr.

Work Experience

Land of Chasers

Ankara, Türkiye

Co-Founder, Product Lead & Instructional Designer

Oct 2022 – Jan 2026

- Produced high-fidelity video tutorials, interactive learning assets, and multimedia content using Camtasia and Premiere Pro, significantly optimizing digital learning experiences and minimizing cognitive load.
- Designed intuitive, user-centric learning journeys and interactive e-learning scaffolds by translating complex technical concepts into accessible digital materials.
- Leveraged learning analytics and user feedback to engineer data-driven retention strategies, achieving a 30% increase in course completion and platform engagement through iterative UI/UX testing.
- Analyzed user interaction patterns and navigation behavior within LMS environments to continuously optimize e-learning workflows and platform usability.
- Project repository: github.com/osmmelih/LandofChasers.git

Google - AI and Tech Academy

Product Owner & EdTech Specialist

Ankara, Türkiye

Nov 2022 – Jul 2023

- Designed and developed 'EduCon', an AI-integrated educational platform, optimizing digital learning paths and user engagement to maximize instructional effectiveness for learners and tutors.
- Led the technical optimization and migration of digital learning assets and e-learning materials across platforms, ensuring LMS compatibility, pedagogical consistency, and high accessibility.
- Optimized platform architecture and digital learning UX/UI through human-centered research and cognitive load analysis to enhance corporate educational solutions.
- Managed the end-to-end development lifecycle of digital learning tools from concept to MVP, seamlessly integrating AI scaffolds to support modern learning processes.
- Project repository: github.com/osmmelih/EducationApp.git

ESSA (Virtual Home Classroom Platform)

Co-Founder & E-Learning Developer / Instructional Designer

Istanbul, Türkiye

Jan 2021 – Sep 2021

- Designed and deployed interactive training formats within LMS environments, managing multimedia assets and structuring digital e-learning modules for 1,000+ active users.
- Developed multilingual e-learning scaffolds and interactive multimedia materials using Articulate 360, tailoring digital content to meet diverse corporate learning needs.
- Spearheaded iterative UI/UX development and user testing, ensuring highly accessible, intuitive user interactions and workflows within digital learning spaces.
- Leveraged gamification mechanics and learning analytics to optimize knowledge retention, bridging the gap between interactive content design and learning outcomes.
- Recognized as an EdTech Finalist at TEKNOFEST 2021 for delivering innovative approaches to digital instructional design and remote e-learning infrastructure.
- Social media profile & update: [instagram.com/theessaofficial](https://www.instagram.com/theessaofficial)

Skills & Languages

Technical Skills: Articulate, Camtasia, Premiere Pro, LMS (Moodle, Stud.IP, Ilias), Digital Content Creation (Video/Audio), Figma, Instructional Design, Canva, Web Accessibility (WCAG 2.1, BITV 2.0), AI Chatbot Architecture, Learning Analytics, Generative AI, UI & UX, Agile development, Jira, Miro, Gamification, CSS & HTML, Python, TypeScript.

Soft Skills: Cross-Functional Collaboration, Proactive problem solving, Team Leadership, Stakeholder Communication, Public Speaking, User-Centric Thinking.

Languages: Turkish (Mother tongue), English (C1), German (B1).
