About Me

M.Sc. student in Educational Technology at Saarland University specializing in Human-Computer Interaction (HCI), C++ software development, and interactive 3D/simulation UI systems. Experienced in engineering real-time AR/GPS HUD interfaces, simulation game mechanics in Unreal Engine 5, and multi-platform software tools. Passionate about contributing software infrastructure, UI component optimization, and clean code practices to high-fidelity flight simulation systems.

Education

Universität des Saarlandes

Saarbrücken, Germany

M.Sc. Educational Technology — Current GPA: 1.7 / 1.0

Oct 2025 – Present

- **Core Focus:** Human-Computer Interaction (HCI), Interactive Systems, Learning Analytics, Software UI Accessibility.

Istanbul University-Cerrahpasa

Istanbul, Türkiye

Bachelor of Education in Preschool Teaching — Final Grade: 3.64 / 4.0 (~1.36 German Grade)

Sep 2018 – Jun 2022

- **Core Focus:** Instructional Design, Cognitive Load Theory, Human-Centered Design.

Experience

Land of Chasers

Ankara, Türkiye

Founder & Simulation UI / C++ Developer

Oct 2022 – Jan 2026

- Engineered interactive 3D simulation mechanics and microlearning games using C++ and Unreal Engine 5, optimizing real-time rendering performance and UI responsiveness.
- Designed and integrated cross-platform digital asset pipelines and user control interfaces, minimizing cognitive load through human-computer interaction (HCI) principles.
- Applied modular software design patterns and version control (Git) to maintain scalable codebase architecture and user telemetry tracking.
- Leveraged user interaction analytics to refine UI scaffolding and platform usability through iterative testing.

Google - AI and Tech Academy

Ankara, Türkiye

Product Owner Trainee

Nov 2022 – Jul 2023

- Supported cross-functional engineering teams in building cross-platform software applications using Flutter and Firebase.
- Facilitated Agile/Scrum workflows, sprint planning, backlog prioritization, and technical review sessions for digital platform architecture.
- Conducted UI/UX usability reviews, system mapping, and accessibility verification for digital tools.

ESSA (Virtual Home Classroom Platform)

Istanbul, Türkiye

Instructional Designer & E-Learning Developer

Jan 2021 – Sep 2021

- Developed interactive digital modules and user-facing e-learning interfaces serving 1,000+ active users.
- Collaborated closely with educational stakeholders and developers to align functional objectives with interactive UI mechanics.
- Recognized as an EdTech Finalist at TEKNOFEST 2021 for delivering innovative educational software infrastructure.

Skills & Languages

Programming & UI Frameworks: C++, Python, TypeScript, Flutter, HTML/CSS, Qt/QML (Basics), C#.

Simulation, AR & UI Tools: Unreal Engine 5, AR/VR (MediaDevices API), Leaflet Maps, Figma, UI/UX Systems, Articulate Storyline.

Infrastructure & DevOps: Git, CMake / Build Toolchains, Firebase, Supabase (PostgreSQL), Agile & Scrum, Jira, Confluence.

Languages: English (C1 - Fluent), German (B1 - Intermediate), Turkish (Native).
