About Me

I am a motivated M.Sc. student in Educational Technology at Saarland University with a strong foundation in digital learning design, human-computer interaction (HCI), and educational media development. Experienced in designing interactive educational games, analyzing user feedback, and optimizing user workflows. Eager to apply my didactical and technical background to a research-driven thesis project, focusing on innovative learning environments.

Education

Universität des Saarlandes

Saarbrücken, Germany

M.Sc. Educational Technology — Current GPA: 1.7 / 1.0

Oct 2025 – Present

- **Core Focus:** Human-Computer Interaction (HCI), Digital Learning Management, Learning Analytics, Multimedia Instructional Design, and AI-enhanced learning scaffolds.
- **Relevant Project Work:** Developed interactive digital training formats and optimized multimedia learning environments with Articulate by applying advanced cognitive load balancing and behavioral analytics.

Istanbul University-Cerrahpasa

Istanbul, Türkiye

Bachelor of Education in Preschool Teaching — Final Grade: 3.64 / 4.0 (~1.36 German Grade)

Sep 2018 – Jun 2022

- **Core Focus:** Instructional Design, Cognitive Processes in Education, Educational Media Creation, and Learner Agency.
- **Thesis/Project:** Educational Technology & Content Creation: Conceptualized and designed interactive, high-fidelity digital learning applications to streamline information processing and maximize knowledge retention with Camtasia and Adobe Premiere.
- **Credits & Details:** 240 ECTS credits. Official website: www.iuc.edu.tr.

Experience

Land of Chasers

Ankara, Türkiye

Founder & E-Learning Developer

Oct 2022 – Jan 2026

- Designed and developed gamified educational products, focusing on mobile-first microlearning games using Unreal Engine 5 and blockchain integration to simplify complex concepts and establish secure digital achievements.
- Produced instructional video tutorials, interactive learning assets, and digital content using Camtasia and Premiere Pro to optimize user workflows and minimize cognitive load.
- Designed intuitive, user-centric learning journeys and interactive e-learning scaffolds by translating complex technical concepts into accessible digital materials.
- Leveraged learning analytics and user feedback to engineer data-driven retention strategies, achieving a 30% increase in course completion and platform engagement through iterative UI/UX testing.
- Project repository: github.com/osmmelih/LandofChasers

Google - AI and Tech Academy

Ankara, Türkiye

Product Owner Trainee

Nov 2022 – Jul 2023

- Supported Agile/Scrum processes by assisting in sprint coordination, backlog prioritizing, and facilitating communication between cross-functional teams for the 'EduCon' EdTech platform.
- Contributed to learning content design, designing pedagogical structures, interactive scaffolds, and digital learning paths to optimize learner engagement.
- Participated in the development, migration, and integration of learning materials and LMS (Learning Management System) features, improving overall platform accessibility.
- Conducted usability reviews and technical mapping of educational tools to ensure alignment with instructional methodologies and web standards.
- Project repository: github.com/osmmelih/EducationApp

ESSA (Virtual Home Classroom Platform)

Istanbul, Türkiye

Instructional Designer & E-Learning Developer

Jan 2021 – Sep 2021

- Designed and developed educational games, interactive instructional modules, and gamified content for a user base of 1,000+ active users.
- Created interactive e-learning modules, digital assets, and multilingual SCORM/xAPI packages using Articulate 360, Camtasia, and Premiere Pro.
- Collaborated closely with educational stakeholders and developers to align pedagogical objectives with interactive game mechanics and intuitive workflows.
- Utilized learning analytics and user feedback to refine instructional scaffolding, enhance digital platform usability, and support remote learners.
- Recognized as an EdTech Finalist at TEKNOFEST 2021 for delivering innovative educational games and remote e-learning infrastructure.
