ABOUT ME

M.Sc. student and Student Tutor in Educational Technology at Saarland University specializing in Human-Computer Interaction (HCI), C++/C# software development, and interactive 3D/VR/AR simulation UI systems. Experienced in engineering real-time AR/GPS HUD interfaces, simulation game mechanics in Unreal Engine 5 & Unity 3D (Meta XR SDK), and mentoring students in programming paradigms. Passionate about contributing XR software infrastructure, spatial interaction mechanics, and clean code practices to cutting-edge research projects.

EDUCATION

Universität des Saarlandes — **Saarbrücken, Germany**

M.Sc. Educational Technology — Current GPA: 1.7 / 1.0 — *Oct 2025 – Present*

- **Core Focus:** Human-Computer Interaction (HCI), Interactive Systems, Spatial Learning Analytics, Software UI Accessibility.

Istanbul University-Cerrahpasa — **Istanbul, Türkiye**

Bachelor of Education in Preschool Teaching — Final Grade: 3.64 / 4.0 (~1.36 German Grade) — *Sep 2018 – Jun 2022*

- **Core Focus:** Instructional Design, Cognitive Load Theory, Human-Centered Design.

EXPERIENCE & ACADEMIC PROJECTS

Universität des Saarlandes — **Saarbrücken, Germany**

Student Teaching Assistant / Tutor — Programming for Educational Technology — *Oct 2026 – Present*

- Conducting weekly interactive programming tutorials and lab walkthroughs in **Python**, guiding graduate students through fundamental programming paradigms and software architecture.
- Performing structured code reviews on student submissions, diagnosing runtime/syntax bugs, and teaching systematic debugging and clean code principles.
- Developing instructional programming guides and scaffolded coding exercises to bridge computational thinking with educational systems.

Land of Chasers — **Ankara, Türkiye**

Founder & Simulation UI / C++ & Unity Developer — *Oct 2022 – Jan 2026*

- Engineered interactive 3D simulation mechanics and microlearning games using **C++**, **Unreal Engine 5**, and **Unity 3D**, optimizing real-time rendering performance and UI responsiveness.
- Designed cross-platform digital asset pipelines and user control interfaces, applying HCI principles to minimize cognitive load during real-time 3D interaction.
- Applied modular design patterns and version control (Git) to maintain scalable codebase architecture and user telemetry tracking.

Antigravity 2.0: GPS-Powered AR Scavenger Hunt — **Saarbrücken, Germany**

AR Software & UI Developer (Dr. Kristin Altmeyer's Course Project) — *2026*

- Developed a full-stack, GPS-powered outdoor AR learning platform utilizing **React 18**, **Leaflet**, and **HTML5 MediaDevices API** for real-world coordinate tracking.
- Engineered a live AR camera overlay with diegetic HUD interfaces, context-adaptive tasks, and real-time student leaderboard mechanics.

Google - AI and Tech Academy — **Ankara, Türkiye**

Product Owner Trainee & Cross-Platform Developer — *Nov 2022 – Jul 2023*

- Co-developed EduCon EdTech mobile platform (**Flutter**, **Firebase**), leading Agile/Scrum sprints, backlog prioritization, and UI/UX usability reviews.

ESSA (Virtual Home Classroom Platform) — **Istanbul, Türkiye**

Instructional Designer & E-Learning Developer — *Jan 2021 – Sep 2021*

- Developed interactive digital learning interfaces serving 1,000+ active users; recognized as EdTech Finalist at **TEKNOFEST 2021**.

SKILLS & LANGUAGES

Programming & UI Frameworks: C#, C++, Python, TypeScript, Flutter, HTML/CSS, Qt/QML (Basics).

VR, AR & Simulation Tools: Unity 3D (Meta XR SDK, OpenXR, Hand Tracking), Unreal Engine 5, Antigravity 2.0 AR, MediaDevices API, Leaflet Maps, Figma, Articulate Storyline.

Infrastructure & DevOps: Git, CMake / Build Toolchains, Firebase, Supabase (PostgreSQL), Agile & Scrum, Jira, Confluence.

Languages: English (C1 - Fluent), German (B1 - Intermediate), Turkish (Native).
